World Prayer (for Individuals)*

Father-Mother God, Source of all Creation, I ask that I be used as an instrument of Love and Light in assisting the Masters of the Spiritual Hierarchy to salvage all peoples, all lands, and our planet Earth.

I now call forth the Army of Light and the Angels and Archangels of Light, asking that they receive all that I, as a co-Creator with the Source, place into prayer.

Now, from the Source of all Creation, I call forth the Universal White Christ** Light, drawing it downward through the top of my head (my Pineal Chakra) and projecting it outward from the center of my forehead (my Pituitary Chakra), visualizing the creation of a sphere of the Universal White Christ Light at which I am the center.

Now I visualize this sphere beginning to expand. Within it, I see my local community and city, the local leaders and governmental officials, and all other people in my area. I visualize this sphere of the Universal White Christ Light continuing to move outward in every direction until all people in my state, including the elected and appointed leaders—the governor, the members of the legislature, and the judiciary—are within this Light.

What I ask for my community, city, state, and people, I ask for all other communities, cities, states, and people, as the sphere of Light continues to expand until it encompasses the entire United States of America.

Within this expanded sphere of the Universal White Christ Light, I visualize our President, Vice President, the Congress, the Federal judicial system, and all of our national public officials and public employees, as well as all other activities of our government, including those related to the economy and to the general well-being of our nation. I visualize all the people in our country being included in this sphere and being raised into a higher level of their spiritual awareness.

As I visualize the Universal White Christ Light surrounding the entire United States, I ask that our borders be protected and that our coastlines be supported by pillars of Light. I ask that all earth faults be filled with Light and that all earth movements be stabilized within our Creator's Will.

I ask that this Universal White Christ Light surrounding our nation continue to flow outward, beyond our borders, and expand in all directions, encompassing our entire planet—including North America, South America, Europe, Asia, Australia, Africa, and Antarctica, as well as all oceans and islands.

I pray that all destructive weather patterns be brought into balance and that—within the Universal White Christ Light—all pollutants be cleansed from our air, land, and water, with special attention to the cleansing of our food and its sources.

Also into this sphere of Light, I place all leaders throughout our world, asking that they be guided within their actions for the highest good of everyone concerned so peace and freedom prevail. I also ask that all Light Workers and Light Groups throughout the world be placed within this sphere of the Universal White Christ Light.

I pray that where there is hunger, there be food; where there is sickness or injury, there be healing; where there is imbalance, there be balance; and where there is catastrophe, there be help that comes forward with love and compassion.

I now place into the sphere of the Universal White Christ Light the following people, situations, and items of

concern that require special assistance.

[Here you are invited to include your own particular concerns for the world, therefore also making them a focus of this World Prayer. Later, you will have an opportunity to add concerns that are specifically personal to you.]

I ask that all that is not rightful, not for the highest good of all people, or not for the good of planet Earth be sealed in its own Light, cut off, removed, and returned to its own source of emanation. I ask that a triple electromagnetic shield of the Universal White Christ Light surround our entire planet, and I concentrate my attention on this Light.

I now call to the Army of Light and the Angels and Archangels of Light and to their special messengers to receive the sphere of Light that has been created. I release this Light into their hands, asking that it be used for the highest good of humanity to salvage all peoples, all lands, and our planet Earth.

•••

[At this point, to add your personal concerns to this World Prayer, first re-establish the sphere of Light by using the same process you used previously:]

From the Source of all Creation, I once again call forth the Universal White Christ Light, drawing it downward through the top of my head and projecting it outward from the center of my forehead, visualizing the creation of a sphere of the Universal White Christ Light at which I am the center.

[Here is where, if you wish, you can include your own specific personal concerns, following them with the conclusion in the following paragraph:]

I now call to the Army of Light and the Angels and Archangels of Light and to their special messengers to receive the sphere of Light that has been created. I release this Light into their hands, asking that it be used for the highest good of humanity to salvage all peoples, all lands, and our planet Earth.

•••

Closing Attunement

Within the Universal White Christ Light and inspired and guided by my High Self, I ask that I be cleared, cleansed, balanced, attuned, and harmonized within all of my Bodies—physical, emotional, mental, and spiritual—and all of my Chakras and all of my Levels of Consciousness—Subconscious, Conscious, and High Self. I ask that each of my Bodies, Chakras, and Levels of Consciousness be placed within a triple electromagnetic shield of the Universal White Christ Light.

And for these blessings, I am grateful and give thanks.

* The Fellowship of Universal Guidance is headquartered in the United States, where the majority of our members reside. For that reason, this prayer as shown focuses on the United States. It is, however, a *World Prayer*, written so it can easily be modified to apply to any local area and any local needs. We encourage you to personalize the italicized section of the prayer by substituting locations, persons, and institutions that are meaningful in your own life, thereby aligning the prayer with your particular circumstances.

** The use of the word “Christ” is optional. Christ is an energy of Light—not a man. Many great teachers, such as Jesus, Moses, and Buddha, were Christed beings. You might substitute “Universal White Light of the Creator” or any equivalent phrase for “Universal White Christ Light” if you wish.
